

## DESCRIPTION

CARGO HOLD APPLICATION SET L is designed for easy and steadfast application of the cargo hold cleaners and protective coatings. It is suitable for a wide range of chemicals like alkaline, acidic, solvents, bleach, etc., and for persistent residues on high elevated areas. It is the ideal solution for low pressure spraying and direct injection of chemical products on vertical surfaces like cargo holds. Low-pressure spraying is recommended for reducing consumed quantities because it minimizes the rebound effect during the spraying.

## APPLICATION & USE

CARGO HOLD APPLICATION SET L works in conjunction with the APPLICATION LANCE. Ensure that you supply the pump with the proper air supply and connect the delivery hose of the lance with the delivery hose of the pump carefully to avoid leakages.

Control the pressure by the ball-valve of the air supply and preserve 1-1.5 m of distance between the nozzle and the surface while spraying. After each use, please rinse the equipment and circulate fresh water to remove any chemicals left inside or outside the machine.

Do not operate the machine if a damaged part/component needs to be changed. The machine is for professional use only and should be used by trained personnel. Please follow all the instructions during operation. For the maintenance make sure to follow manual's instructions and use only the genuine spare parts to ensure long service life.

## TECHNICAL SPECIFICATIONS

Flow Rate: 150 L/min  
Air inlet: 1/2 inch  
Suction - Discharge: G1"

**NOTE:** Always wear the appropriate personal protective equipment when using this product.

## DIMENSIONS

Length: 79 cm  
Width: 52 cm  
Height: 52 cm  
Weight: 25 kg

Comes with air operated diaphragm pump 1", 25 m delivery hose, 5 m suction hose, and hose connections (PCN 0160135).

## IMPORTANT INFORMATION

Drew Marine maintains Safety Data Sheets on all of its products. Safety Data Sheets contain health and safety information for your development of appropriate product handling procedures to protect your employees.

Our Safety Data Sheets should be read and understood by all of your supervisory personnel and employees before using Drew Marine products.

## FEATURES

- Versatile, low-pressure application set
- Ideal for applying chemical solutions & protective coatings
- Long reaching telescopic lance & long outlet hose
- Light weight; easy to carry, use, and store
- Air-operated double diaphragm pump
- Simple to assemble & use

## BENEFITS

- Stainless steel protective base with anti-slip feet
- Suction filter for long service life
- All necessary accessories included
