

DESCRIPTION

DREWJET 250 II is a mid-range pressure cleaning, maintenance, and surface preparation system. It is an electrically driven water-washing machine with a triple ceramic plunger and maximum pressure of 250 bars. It is suitable for very challenging cases. DREWJET 250 II has a stainless steel frame for optimal use on board and strong resistance to the harsh marine environment.

APPLICATION & USE

DREWJET 250 II is designed for optimal cleaning of the engine room, deck, and cargo areas. It has mid-range pressure thus it is reliable for loose paint maintenance and thick dirt. Prior to using, please read the chapter “before starting the high-pressure water cleaning machine” in the manual.

Supply the machine with the proper standards of power and water according to instructions and connect carefully the hoses and cables to avoid leakages. Turn the gun down before pressing the trigger and preserve 5-10 cm of distance between the nozzle and the surface while spraying. After every use, please rinse the machine and circulate fresh water, to remove any salt remains inside or outside the machine for long service life. Do not operate the machine if a damaged part/component needs to be changed. The machine is for professional use only and should be used by trained personnel. Please follow all the instructions during operation. For the maintenance make sure to follow manual's instructions and use only the genuine spare parts to ensure long service life.

TECHNICAL SPECIFICATIONS

Max Pressure (bar):	250
Power Supply (Volt/Hz/Amp):	440/60/16
Max Flow (LPM):	18
Engine Power (kW/HP):	7.5/10

FEATURES

- Stainless steel frame
- Pump with triple ceramic plunger
- Heavy duty construction

NOTE: Always wear the appropriate personal protective equipment when using this product.

DIMENSIONS

	PACKAGE	EQUIPMENT
Length:	130 cm	86 cm
Width:	96 cm	66 cm
Height:	105 cm	60 cm
Weight:	143 kg	88 kg

Comes with a spray gun, 80 cm lance, flat nozzle, 10 m HP hose extension, 5 m electric cable. (PCN 9801011).

SUGGESTED ACCESSORIES

9903015	Hose Extension, 20m (Up to 5x)
9902017	Electrical Cable Extension, 20m (Up to 2x)
9899016	Turbo Rotating Nozzle 250bar
0200544	DREWJET Sandblasting Kit 250

BENEFITS

- Manual pressure adjustment for easy operation
- Solid tires for optimum protection
- Third swivel wheel for easy handling
