

DESCRIPTION

DREWJET 500 III is an high pressure system that delivers excellent cleaning, maintenance, and surface preparation results.

It is electrically driven, water-washing machine, with a triple ceramic plunger, maximum pressure of 520 bars and it is suitable for extremely challenging cases.

DREWJET 500 III is a heavy duty equipment, with a stainless steel frame for optimal on board ship use and strong resistance to the harsh marine environment.

APPLICATION & USE

DREWJET 500 III is high-performance, designed to remove even the toughest residues like thick rust, solidified cement and greasy residues from the cargo holds to deck areas. If used in combination with sandblasting kits it is the optimal solution for paint removal to bare metal and surface preparation for further processing.

Prior to using, please read carefully the chapter “before starting the high pressure water cleaning machine” on the manual.

Supply the machine with the proper standards of power and water according to instructions and connect carefully the hoses and cables to avoid leakages. Make sure to change the disposable water filter if needed.

Turn the gun down before pressing the trigger and preserve 5-10 cm of distance between the nozzle and the surface while spraying.

After every use, please rinse the machine and circulate fresh water, to remove any salt remains inside or outside the machine for long service life.

Do not operate the machine if a damaged part/component needs to be changed.

The machine is for professional use only and should be used by trained personnel.

Please follow all the instructions during operation. For the

maintenance make sure to follow manual’s instructions and use only the genuine spare parts to ensure long service life.

TECHNICAL SPECIFICATIONS

Max Pressure (bar):	520
Power Supply (Volt/Hz/Amp):	440/60/32
Max Flow (LPM):	18
Engine Power (kW/HP):	15/20

NOTE: Always wear the appropriate personal protective equipment when using this product.

DIMENSIONS

	PACKAGE	MACHINE
Length:	130 cm	103 cm
Width:	96 cm	76 cm
Height:	105 cm	72 cm
Weight:	230 kg	175 kg

Comes with a spray gun, 80 cm lance, flat nozzle, 10 m HP hose extension, 5 m electric cable and 3 jet water filters (disposable).

SUGGESTED ACCESSORIES

9809015	Hose Extension 3/8” 1/2” 500, 20m (Up to 5x)
9807019	Electric Cable Extension, 20m (Up to 2x)
9804015	Turbo Rotating Nozzle 500bar
9896012	DREWJET Sandblasting Kit
0200538	Jet Water Filter Type I (10x)

FEATURES

- Stainless steel frame
- Pump with triple ceramic plunger
- Interchangeable water filter
- Heavy duty construction

BENEFITS

- Manual pressure adjustment for easy operation
- Solid tires for optimum protection
- Third swivel wheel for easy handling
- Branded components’ makers
