

DESCRIPTION

HOLDBRITE XF (EXTRA FOAM) has high effectiveness in removing heavy-duty residues. It is a user friendly product, without negative effects on the coatings and the environment. It is ideal to remove pet coke, coal, oily cargoes, vegetable and animal oils, soot, carbon deposits, dirt, and grime.

Can be applied safely on any metal surface and parts, except for aluminum, zinc, tin and its alloys.

IMO APPROVED registered in Annex 10 of IMO's MEPC.2/ Circular.

APPLICATION & USE

Prior to the application, sweep away the remaining cargo deposits or rust flakes, if any, using brushes, scrapers, compressed air, etc. but avoid using any water (neither sea nor fresh water) for pre-washing the surfaces.

Prepare 1-2 samples (70:30, 50:50) with HOLDBRITE XF and fresh water in order to perform small tests and determine the suitable dilution. Apply the product starting from the lower levels gradually to the upper ones.

Make sure that the applied chemical is left to react for 10-20 minutes before rinsing, depending on the environmental conditions (temperature – humidity). Rinse the detergent before allowing it to dry, using water under high pressure. To enhance the effectiveness of the product, it is highly recommended to use fresh water. Fresh water should also be used for the final rinsing to remove salt remains from the seawater.

TYPICAL PHYSICAL PROPERTIES

Appearance:	Red liquid
Odor:	Soft
pH (neat):	13.0 ± 1.0
Density at 20°C:	1.01 ± 0.05 g/cm ³
Solubility:	Soluble in water
Compatibility: (Concentrated)	Incompatible with aluminum, zinc, tin, and their alloys

NOTE: Always wear the appropriate personal protective equipment when using this product.

PACKAGING

HOLDBRITE XF is available in 210 liter drums (PCN 9875016).

IMPORTANT INFORMATION

Drew Marine maintains Safety Data Sheets on all of its products. Safety Data Sheets contain health and safety information for your development of appropriate product handling procedures to protect your employees.

Our Safety Data Sheets should be read and understood by all of your supervisory personnel and employees before using Drew Marine products.

FEATURES

- Versatile for multipurpose cleaning
- Specially formulated to clean vertical surfaces
- Water soluble with composition conforming to MARPOL Annex V
- IMO-approved cleaning agent

BENEFITS

- Contains foam agent for enhanced foaming effect
- User friendly
- Cost effective: dilute for most cleaning needs
- Contains biodegradable ingredients
