

## DESCRIPTION

The Montreal and Kyoto Protocol in conjunction with environmental regulations in most countries, now mandate the recovery of refrigerant from a system prior to beginning service work. While most marine systems contain receiver that are capable of containing the entire system charge and can be isolated from the rest of the system, it may still be necessary to have recovery equipment on board to meet current requirement.

## ORDERING INFORMATION

Refrigerant recovery cylinder 56L	PCN 0652090
Refrigerant charging scale	PCN 0129511
Refrigerant manifold system	PCN 0658031
Refrigerant recovery machine 120V	PCN 0882085
Refrigerant recovery machine 220V	PCN 0882077
Refrigeration vacuum pump	PCN 0704024
Infrared thermometer	PCN 0129529
Refrigerant electronic leak detector	PCN 0820028
Leak detector spare sensor	PCN 0820036
Ratchet wrench, 4 way 1/4" – 3/16" 3/8" – 5/16"	PCN 0129503
