

DREW™ WATER TREATMENT TEST CABINET

DESCRIPTION

The DREW Water Treatment Test Cabinet provides excellent storage for water treatment test kits and apparatus. Constructed of steel, it has a white, durable coating with a door which folds up and out of the way allowing the fold-down lower door to be used as a work surface.

Shelving allows for organization of the various kits with a section that accommodates burets for titrations if needed. The cabinet is 76 cm (30") wide, 51 cm (20") high and 25 cm (10") deep.

The cabinet is lighted inside and can be supplied as 220-volt or 110-volt. The 220-volt cabinet comes with a transformer and plug. The water treatment test cabinet can be easily mounted on the bulkhead.

ORDER INFORMATION

Water Treatment Test Cabinet 220-volt	PCN 1AA0016
Water Treatment Test Cabinet 110-volt	PCN 1AA2148

Kits and equipment sold separately.
