

# PH TESTER 30

## DESCRIPTION

The pH Tester 30 is a microprocessor, pocket-sized instrument that simultaneously measures and reads pH and temperature in °C. Its rugged housing is suitable for the marine environment. The pH Tester 30, PCN 1AA8884, has automatic temperature compensation and calibration is easy.

The pH Tester 30 runs on four, 1.5 V batteries with battery life over 500 hours. Note: The latest generation pH tester model operates on 4x AAA batteries. The operating temperature is 0 to 50 °C.

## APPLICATION AND USE

The pH Tester 30 is used for measuring pH in makeup water, feed water, boiler water, cooling water, potable water, and waste water.

## PROCEDURE

Please refer to the Instruction Manual supplied with the meter for use instructions.
